Seeking a position as a junior mobile application developer where I can maximize my software and problem-solving skills.

Career Related Skills

Software Skills
- Analyze and design mobile applications based on user specifications using object orientation.
- Develop, test, and deploy a variety of native mobile applications for multiple platforms and devices.

Problem Solving
- Always trying to look for a better solution
- Ability to work under stressful situations

VOLUNTEER EXPERIENCE

Windsor Public Library Peer Tutor
- Along with a supervisor, provided a friendly environment for students after school to work

- Reviewed and taught lessons in various subjects and ran various activities for children

EDUCATION

St. Clair College
- Currently studying Mobile Application Development at St. Clair college (2015-2018)
